

Focus Group Artificial Intelligence & Data

Driving Sovereign AI Adoption and Data Innovation Across Europe

At the European Champions Alliance, focus groups are strategic engines that turn shared European ambitions into structured action. The **AI & Data Focus Group** connects corporate leaders, startups, researchers, and policymakers to advance trustworthy, applied AI and data-driven innovation across Europe.

About

The AI & Data Focus Group fosters responsible, human-centric AI development and data collaboration across Europe. We bring together innovators, corporates, policy actors, and ecosystem builders to explore strategic topics like AI governance, foundation models, industrial use cases, and data infrastructure.

What We Do

- **Use Case Scouting:** We identify, curate, and share impactful AI use cases across industries
- **Strategic Networking:** We connect AI & data startups with corporates, integrators, and research stakeholders
- **Thought Leadership:** We host expert sessions on GenAI, regulatory readiness, and AI ethics in practice
- **Event Activation:** We support visibility and participation in European AI forums and industry platforms

Current Initiatives & Programs

- **AI Use Case Mapping 2026**
- **ECA Tech Summit 2027:** AI & Data is a core track at ECA's flagship event, bridging innovators and decision-makers
- **Focus Group Meetings:** Ongoing exchanges to define priority areas and develop collaborative opportunities
- **Policy & Ethics Sessions:** Dialogues on AI regulation, transparency, and alignment with EU values

WHO SHOULD JOIN

- AI & Data Startups and Scale-ups
- Heads of AI / Chief Data Officers in Corporates
- Applied Researchers and Technical Experts
- Policy Stakeholders and Legal Advisors
- Systems Integrators and Ecosystem Builders

MEMBER BENEFITS

- **Visibility:** Be positioned as a leader in AI via mappings, showcases, and curated opportunities
- **Access:** Gain trusted entry points to Europe's AI innovation landscape
- **Insights:** Stay ahead with curated intelligence on GenAI, regulation, and industry trends
- **Influence:** Co-shape how Europe applies and governs AI by joining expert-driven collaboration
